Frederick S. Hillier was born and raised in Aberdeen, Washington, where he was an award winner in statewide high school content in essay writing, mathematics, debate and music. As an undergraduate at Stanford University, he ranked first in his engineering class at over 300 students. Dr. Hillier's research has expanded into a number of areas, including integer programming, queue theory and its application, statistical quality control, and the application of operations research to the design of production systems and capital budgeting. He was the first prize winner of a research competition for Capital Budgeting of Interrelated Projects sponsored by The Institute of Management Sciences and the U.S. Office of Naval Research. He and Dr. Lieberman also received the honorary publicity award for the 1995 Lanchester Prize (best English-language publication of any kind in operations research) for the sixth edition of IOR. He currently serves as Series Editor for International Series in Operations Research and Management Science, published by Kluwer Academic Publishers. Students, we are committed to providing you with high value course solutions backed by great service and a team that cares about your success. See the tabs below to explore options and prices. Do not forget, we accept financial aid and scholarship funds in the form of credit or debit cards. For more than four decades, Introduction to Operations Research by Frederick Hillier has been the classic text on operations research. While building on the classic strengths of the text, the author continues to find new ways to make the text topical and relevant to students. One way is by incorporating a wealth of state-of-the-art, user-friendly software and more coverage of business applications than ever before. Hallmark elements of this edition include new sections and chapters, updated problems, clear and comprehensive coverage of basics, a variety of interesting problems and cases, and state-of-the-practice operations research software used in conjunction with examples from the text.
